FORD RANGER PX AND PXII MODELS - 2WD (HI RISE) & 4WD

If your Ford Ranger carries loads for a living or if you are serious about what you take with you on your next journey then Pedders has the answer for you!

When your vehicle is fully loaded for the journey ahead or if you are carrying the tools of your work trade, chances are that your vehicle may be overloaded beyond its GVM and Payload capacity and you may not even know it. Common items such as tools, tool boxes, cargo, bull bars, winches, towbars, fuel, accessories, passengers, recovery gear all combine to add weight to your vehicle and decrease the available payload. It is also important to note that if you have purchased a cab/chassis, the weight of any tray or service body is considered to be part of the "kerb weight" - therefore further reducing the available payload.

FORD RANGER GVM+ UPGRADE SOLUTIONS FROM PEDDERS

- Support network of over 120 Pedders outlets Australia wide.
- All components installed as part of a Pedders GVM+ upgrade package are backed by a Pedders 2 Year/40,000kms Nationwide Warranty.
- GVM Upgrade Kits for 2wd (hi rise) and 4wd PX Ford Rangers provide an approved increased payload of up to 300kgs.
- The GVM+ upgrade kit is an ideal choice for those who carry heavy loads for work, the serious off-road vehicle fitted with bull bars, winches and those towing caravans, campers, trailers or horse floats.
